

Newsletter 12-2010

Merry Christmas! We hope you are enjoying your holidays and will have a splendid start of 2011.

Preparations for Unicon16 have been going on for a couple of months now. In order to keep you updated, we put together this newsletter with important news concerning Unicon16 as well as registration, which is going to open early 2011.

Program Unicon16

The program of Unicon16 has been updated and is now online. Some competitions and events are being held at the same time. Please take some time considering which competitions you want and will be able to attend.

Unicon16 Convention

UniCon16 is going to be an extraordinary convention. We, the organizers of UniCon16, are looking forward to not only hold the world championships but also make a great unicycle convention happen. As the name UniCon suggests, the focus of the event lies on the get-together, not the competition. In this sense, being part of the event is the most important aspect.

At UniCon16, you can not only win medalls, but mostly friends and experiences you'll be able to tell all your life. This is why UniCon16 will have a lot of room for all kinds of meetings. UniCon16 wants to promote unicycling as a sport; there is no place better for that, than one where unicyclists from all over the world are present. This makes UniCon16 a great unicycle fest, a unique experience, a dream coming true.

In order to make some of your dreams come true, we are not only inviting but asking you to get involved. When registering, tell us your dream for UniCon16.

With your ideas and your creative input, you are supporting us in planning this convention, that will have lots of room to try new things, become creative and live it out. We need your input and are grateful for it. We want to make UniCon16 something big, so big, that the active help of each participant makes it bigger than we can imagine.

Briefly: UniCon16 is the convention that you have to be part of, because it is new and extraordinary and additionally it is the host of world championships. Here's a little taste of what is awaiting you at UniCon16 for your inspiration and increase of anticipation:

Spagetti Day – all finals at prime time – a very long list of workshops – a birthday circle at the opening event – get-together of partner clubs – Uni-Fight-Night – Gala Show – fun rides in large and small groups – Gaudi Day – World's Sexiest Unicyclist Competition

Registration

In January 2011 we'll open registration. Here is some information about Unicon16 in advance:

The schedule of Unicon is divided into three parts:

- **Racing:** Races as they have always been but with some new rules, that are being described further down
- **Workshops:** For the first time in Unicon history, we want to put emphasis on the workshops. 3 hours are reserved for workshops each day.
- **Fun:** The fun of unicycling and the exchange between unicyclists is an important part of Unicon16. In addition to Gaudi Day, we'll add more fun events to the program.

What is part of registration?

Anybody who registers for Unicon16 has the right to a basic package of events. Each participant can be part of the following competitions:

- 100 m
- IUF Slalom

During the first phase of registration, each participant can register for those limited competitions.

Attention: Since some competitions are being held at the same time, it is essential to only register for events that you will be able to take part in timewise.

Additionally, we are asking all participants to register only for events that they are actually going to compete in. This is the only way to make this a great Unicon not only for a few but for all participants.

In order to make this a great Unicon for everyone, the organizers are subject to disqualify participants, that do not show up for 2 or more competitions they were registered for.
